Artificial Intelligence-based photo painting

# Why choose Painter Essentials 7?

## Amazing auto-painting

Turn your photos into eye-catching paintings with one click. Auto-painting lets you choose an AI or SmartStroke™ style and watch your photo painting come alive, stroke by stroke.

## Natural-Media® that mimics traditional

Immerse yourself in an industry-acclaimed collection of Natural-Media brushes and canvas textures. Craft your masterpiece with stunning reality using authentic dry and wet media.

## Signature Painter media types

Create out-of-this-world art with particles that spring, flow and glow, visionary Pattern Pens that command attention, and Image Hoses that add that special pop to your work.

## Tracing and cloning

Simply clone your images by turning on Tracing Paper and dipping your brush directly into the photo using the Clone Color from source image or any color you choose.

## Intuitive user interface

An uncomplicated UI built for beginners allows you to select a dark or light interface with all the tools and brushes you need at the ready.

## Valuable symmetry tools

Paint in perfect symmetry with Mirror painting and create beautiful Mandalas using the Kaleidoscope tool.

## Drawing tablet compatibility

When painting with a drawing tablet, you will have full, pressure-sensitive control of every brush, allowing you to recreate the look and sensation of painting with traditional media.

## Incredible speed

Essentials manages memory-intensive operations, such as working on large canvases, scrubby zooming, rotating, working with layers and brushing, all at top speed.

## Built-in learning

As soon as you launch the Essentials application, the intuitive Welcome Book will greet you with helpful tutorials and workflow tips.

## Ultimate flexibility

Preserve colors and layers with ease when transferring files between Photoshop and Essentials while working on either a 64-bit Mac or PC.

## Who's it for?

### Beginner digital artists

Take advantage of Essentials' comfortable interface and streamlined brushes and tools that allow a new artist to experiment with a wide variety of media.

### Photographers

Use powerful AI auto-painting and Cloning tools to paint photos and produce visually stunning keepsakes and sellable works of photo art.

# Impressive new features

## NEW Artificial Intelligence-based photo painting

Convert your favorite photos into paintings using neural networking and the strength of Painter's brush engine! Choose from an impressive range of AI styles for photo painting, including Bold Watercolor, Colored Pencil, Colorful Dabs, Impressionist, Smooth Acrylic, Van Gogh, Watercolor Portrait, and Charcoal Drawing.

## NEW Brush Technology

Dab Stencils knock out areas of a brush so that textures take center stage. Dynamic Speckles is a brush category that generates lively multi-colored strokes, and Glazing brush opacity builds up smoothly along the brushstroke allowing you to masterfully blend colors.

## NEW User Interface updates

A sleek dark UI with tool highlighting, a streamlined Property Bar, plus redesigned application icons and brush previews make things easier on the eyes, simple to understand, and more efficient to use.

## NEW Media content

Enjoy a library of Flow Map textures to add dramatic dimension to your paintings, and choose from a library of Image Hose Nozzles to artfully spray on canvas.

## ENHANCED Performance

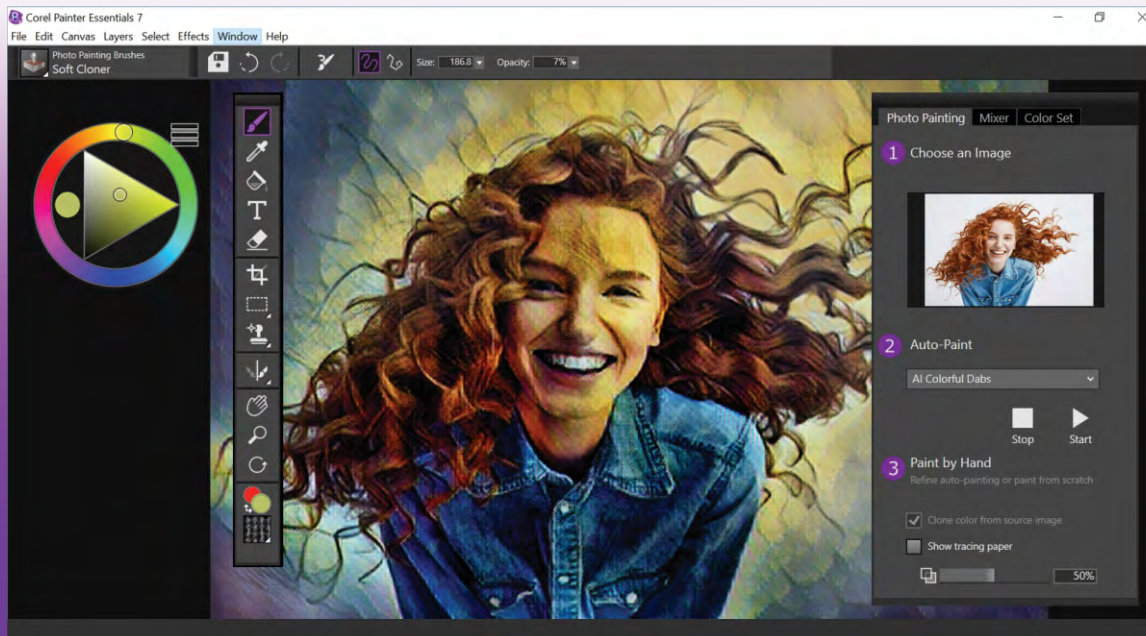

Essentials can easily manage memory-intensive operations, such as working on large canvases, scrubby zooming, rotating and working with enhanced layers, all at top speed.
